

The ReSCOPE Programme

APPLICATION FORM TO BECOME A PARTNER ORGANISATION – Annex 1

PREAMBLE

The younger generation are the future custodians of the planet's resources and many initiatives must be taken to empower them for sustainable development and also to improve the present situation in terms of food and nutrition security. To this end, the Regional Schools and Colleges Permaculture (ReSCOPE) Programme has been established to promote the sharing of experiences by partners who are committed to assisting schools and colleges. In addition, we need to demonstrate sustainable land-use with a view to enhancing healthy environments in and out of school.

Partnership with the ReSCOPE Programme is based on commitment to socially and ecologically sound land-use activities in schools. This commitment must be seen through the allocation of resources to such activities by the partner organization. The work of the ReSCOPE Programme is focused on fostering partnerships and sharing experiences on sustainable land-use. Partner organizations of ReSCOPE Programme must be engaged in practical work with schools in promotion of productive and healthy environments and must be committed to environmentally friendly practices in their work. Among other things the partner organizations will receive a newsletter and participate at meetings, workshops and other activities of the programme. As part of their contribution to the partnership, partner organizations will be expected most of the time to transport themselves to and from the ReSCOPE meetings and other activities and provide any allowances that may be due to them for participating as such occasions. The ReSCOPE Programme is neither a donor organization nor a membership one. It is about partnerships for supporting sustainable land-use in schools.

Completed application forms should be sent together with copies of any promotional or publicity materials about the applicant organization to the Regional Coordinator, P.O Box 32280, Chichiri, Blantyre 3, Malawi. Fax: +265 1 831 363; Email: rescope@sdnj.org.mw or zipscope@yahoo.co.uk.

Applicants will be advised in writing when their applications are received as well as when their applications have been considered by the Programme Management Committee.

1. Full name of organization:
2. Acronym:
3. Type of organization:
4. Registration number:
5. Date founded/registered:
6. Postal address:
